General Information

Terms and Conditions of Sale Order Information

GEIGER

Application of Standard Terms

Only the standard terms of sale stated in this catalog apply to any transaction unless those terms are modified or supplemented by a written document signed by an officer of Geiger International, Inc. ("Geiger"). Any terms contained in Customer's purchase order, including standard printed provisions, that are additional to or contrary to these terms, are not effective.

Use of Furniture and Materials

Geiger assumes that textiles, leathers and products are intended for commercial use and are not being bought for use primarily for personal, family, or household purposes. When installed and used as intended, products remain chattel property, are not considered fixtures, and no interest in them should arise under applicable real estate law.

Furniture Prices

Prices are determined by using the published list prices in effect when Geiger receives Customer's completed purchase order. If Customer's requested ship date is more than three months after Geiger receives Customer's order, it may be repriced using the list prices in effect when products ship. If Customer designates special finishes or options, additional charges may apply. Services such as design, project management, packaging, storage, inside delivery, double handling, installation, or inventory management are not included in Geiger's list prices.

COM / COL Procedures

If an order includes Customer-supplied materials, Customer must ship those materials to Geiger at Customer's own expense. The materials must be tagged with Geiger's confirmation number, item number, Customer's name, and purchase order number. Geiger is not liable for inadequacies in Customer's materials. Geiger will notify Customer of any apparent defects in Customer's materials before manufacturing.

Taxes

Customer is responsible for any local sales taxes or other similar taxes imposed on transactions.

Delays

Geiger is not liable for failure to ship by the acknowledged shipping date or any other date. Geiger is not liable for a delay or failure in shipment or performance if the delay or failure is caused by acts of omission of Customer, its agents, employees, contractors, a governmental authority, or God; delays in transportation; or other similar causes that are not within Geiger's reasonable control. Geiger is excused from further performance of its obligations for the duration of a force majeure cause.

Changes and Cancellation

Geiger's acceptance of an order is final and binding and an order may not be changed or canceled without Geiger's written consent.

Orders placed on any of Geiger's expedited shipment programs and orders of custom-dyed or custom-woven materials may not be changed or canceled. To change or cancel other orders, contact Geiger Customer Care in writing for authorization and applicable charges.

Storage

If Customer cannot accept delivery when products are ready, Geiger reserves the right to transfer products to storage and products are invoiced at that time. Customer is responsible for actual storage charges and any other expenses relating to the storage of products or materials that Geiger incurs. Customer bears all risk of loss for products or materials in storage.

Freight Terms

For casegoods and seating orders shipped within the 48 contiguous United States, surface freight charges are included.

For textile and leather orders actual packing and freight charges will be invoiced. Orders are shipped UPS ground unless requested otherwise.

For orders shipped to Alaska or Hawaii, the freight terms stated above apply only to the port of embarkation. Shipments beyond that point are freight collect. Domestic deliveries are shipped FOB Geiger's plant to a destination designated by Customer by a method Geiger selects.

Packaging and Shipping

Geiger's casegoods products are shipped in component form. Shipments over \$50,000 net are blanket wrapped. Tops and panels are shrink wrapped with cardboard corner protection. Pedestals, storage units, overheads and vertical storage units are wrapped in blankets and shrink wrapped with cardboard corner protection. Blankets are to be returned to Geiger for reuse. If the customer request cartoning on orders over \$50,000 net, there will be a charge of five percent of the net order. Packing materials are recyclable.

Shipments under \$50,000 net are cartoned. Cartoned shipments are packaged with a combination of cardboard channels and shrink wrap. Packing materials are recyclable.

Geiger's seating is cartoned in boxes for less than truckload shipments. Full truckload shipments are blanket wrapped.

If Customer requests special shipping or delivery methods, Customer is responsible for any extra costs that result.

Packaging and Shipping (continued)

Customer obtains title to products and materials, and assumes the risk of loss for them, upon shipment from Geiger's plant. Geiger reserves the right to make partial shipments, of truckload quantities, as products are manufactured.

Effective May 2, 2011 Geiger will add a shipping charge to all purchase orders under \$100,000 list. The amount of the shipping charge will be equal to a percentage of the overall list price of the entire order based on the ship to address. These charges will not be discounted.

International Shipping

Orders for export are shipped Ex Works factory (Incoterms 2000). The charge for export packing is five percent of the net order value. There are no export packing charges on shipments to Canada.

Claims

All blanket wrapped shipments must be unwrapped and inspected at the dock, in the presence of the driver. Claims for "concealed damage" or "subject to inspection" will not be honored on blanket wrapped shipments.

All cartoned shipments must be inspected for visual outside damage to the package.

Damages and piece count shortages must be noted on the bill of lading. Freight claims must be filed within 30 days (including cartoned shipments with concealed damage). Contact Customer Care for a warranty/freight claim form and send it by fax, mail or email to:

Warranty

Geiger International, Inc. ("Geiger"), 6095 Fulton Industrial Blvd., SW, Atlanta, GA 30336-0068, USA, warrants the products sold by it to be free from defects in material and workmanship, regardless of the number of shifts during which the products are used, for the warranty periods specified below.

This warranty covers the sale of Geiger product in all countries. Not all of the product lines appearing on this list are marketed by Geiger in all countries, and appearance on this list does not imply an offer for sale of a product line in a particular place. Product line availability is defined in current price lists applicable to different regions.

Geiger Commercial Office Furniture Products
12 years

All products sold under the Geiger® brand name, except as limited or described below.

Textile Alliance Program™ Fabrics
3 years

Includes, but is not limited to Luna, Bergamo and True fabrics and Edelman leathers.

Intersection™ Fabric
3 years

Nonstandard Products
1 to 5 years

Warranty length on nonstandard products not covered by the 12-year warranty is identified on individual product quotes.

All Other Products, Parts, and Services
5 years

Electronic ballasts used in task lighting

3 years

All service parts

6 months

All other products, parts, and any services not listed above, sold or furnished by Geiger, except for consumable products such as light bulbs and other electronic products for which no warranty is given

Other Manufacturers' Products
None

Geiger will pass through to the original purchaser any warranty supplied by other manufacturers to the extent possible, including, but not limited to, open-line laminates.

Provisions that apply to all products and services:

During the applicable warranty period, Geiger, as its sole obligation, will repair or replace

Warranty (continued)

(at its option) any product, part, or component covered by this warranty and sold after the effective date of this warranty, which fails under normal use as a result of a defect in material or workmanship; Geiger will repair or replace the aforementioned product, part, or component with a comparable product, part, or component.

This warranty extends only to the original purchasers who acquire new product from Geiger, or its authorized resellers. Any product, part, or component must have been installed, used, and maintained according to Geiger's published instructions in order to be eligible for coverage under this warranty and must not have been subject to misuse or abuse. Any modification to the original product voids the warranty. Geiger does not warrant the performance of the product when used in combination with other than original Geiger product.

The warranty period starts from the date of purchase.

This document inclusively describes all of the warranties given and remedies available with respect to the company's products and services. Geiger disclaims any other warranty whether express or implied, statutory or otherwise, in relation to the products.

Geiger does not warrant:

- natural variations in wood grain or figure or the presence of character marks
- changes in surface finishes due to aging or exposure to light
- marks, scars, or wrinkles occurring naturally in leather
- veins, marks, voids, fissures, or cracks found naturally in stone

In addition, Geiger does not warrant:

- failure resulting from normal wear and tear
- the matching of colors, grains, or textures of natural materials
- the colorfastness or the matching of colors of textiles, including an exact match to cuttings or to swatch cards
- damage, marking, or staining of veneer surfaces due to contact with rubber or similar compounds; damage from sharp objects or imprinting from writing instruments, or prolonged exposure to direct sunlight

Geiger tests Customer's Own Material (COM) and other customer-supplied items for manufacturing quality only and does not provide any warranty with regard to these materials.

Geiger does not warrant products that are exposed to extreme environmental conditions or that have been subject to improper storage.

Warranty (continued)

Geiger's products meet the requirements of national and specific local codes as stated in the price books and other written publications.

TO THE EXTENT ALLOWED BY LAW, ANY IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED AND TO THE EXTENT THEY ARE LEGALLY REQUIRED, ARE LIMITED IN DURATION TO THE DURATION OF THIS WRITTEN WARRANTY.

GEIGER SHALL NOT BE LIABLE FOR LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, OR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Applies in US only: Some states do not allow limitations on how long an implied warranty lasts or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions in the two preceding paragraphs may not apply. This warranty gives the purchaser specific legal rights; however, the purchaser may also have other rights that may vary from state to state.

Applies outside US: Except as stated above, Geiger will not be liable for any loss or damage (including costs) however caused, whether direct or consequential, incurred or suffered by the purchaser or any third party in respect of the products but nothing contained herein will or will be considered to exclude or restrict any liability on Geiger's part for death or personal injury resulting from negligence.

Limitations and Disclaimers

Geiger is not liable for loss of time, inconvenience, lost profits, commercial loss, or other special, consequential, or incidental damages for any transaction.

Geiger reserves the right to change its designs, its methods of construction, or its prices, charges, or policies at any time without notice to Customer.

Design Rights

The designs depicted in Geiger's catalogs and price lists are proprietary to Geiger and Geiger reserves the exclusive right to manufacture them. Any reproduction of these designs infringes Geiger's rights and that infringement will be prosecuted.

How to Specify Specification Notes

How to Specify

- For each product ordered, specify a product number string. The string should include the product number and all finish and detail codes listed at the bottom of the pricebook page.

- Specify the finishes and details in the same sequence shown on the pricebook page.

- Product number string example:
ABR3R4896 643 E02 643 926 926 I926

The product number string above includes all codes for a Broadcast rectangular table with the following specifications:

Product Number ABR3R-4896
Wood Finish 107 Natural Maple
Edge Detail E02 Quarter Radius
Column 643 Caramel Cherry
Foot 926 Black
Grommet CA926 Black
Inlay I926 Black Metal

- Basic Price reflects the price of the product without optional features. Add upcharges as shown on the product page for anigre wood finishes, solid edge detail, inlay, marquetry or trim.

General Notes

- Most units ship **unassembled**; all hardware for assembly is included.
- Broadcast casegood and table dimensions shown are nominal; fractional dimensions are rounded to the nearest half inch. Casegood dimensions do not include 1/4", 3/4" or 2" edge overhang.
- Tops are 1 1/2" thick; casegood bases are 2 1/2" high wood veneer or metal.

Presentation Cabinets

- Cabinets are available with a separate 1 1/2" thick wood top with specified edge detail above door.
- Hospitality storage includes flip chart on door interior, coat rod behind hinged dry-erase marker surface, marker and eraser, and two pullout shelves behind lower doors or two file drawers.
- Equipment storage includes flip chart on door interior, two adjustable shelves behind hinged dry-erase marker surface, marker and eraser, and two pullout shelves behind doors or two file drawers.
- Cabinets include vent in top, partial-depth fixed shelf, and two black cable access grommets in one side for pass-through cabling between cabinet and monitor stand.
- Cabinets with predrilled holes for side mount overhead attachment include an additional black cable access grommet in one side for pass-through cabling between cabinet and overhead.
- * For additional marker/eraser kits specify CKIT-618.

Side Mount Overheads

- Side mount overheads are designed to attach easily to presentation cabinets which have been specified with predrilled holes for attachment of side mount overheads. Hardware for attachment is provided.
- Overheads include cable access grommet in each side for pass-through cabling between overhead and cabinet.
- Inside clearance of each side mount overhead section is 21 1/2" deep x 9 1/4" high. Inside width clearance is as follows:

Overall Width	Left	Center	Right
42"	10 1/2"	17"	10 1/2"
48"	10 1/2"	23"	10 1/2"
54"	10 1/2"	29"	10 1/2"
60"	10 1/2"	35"	10 1/2"
66"	10 1/2"	41"	10 1/2"

Common Tops

- Common tops are designed for field installation across two presentation cabinets with one side mount overhead in the center. Specify presentation cabinets without wood top, side mount overhead and one common top in total length required.
- Common tops are 1 1/2" thick and are available in all edge details, up to 120" wide.

Monitor Stands

- Monitor stands include three separate cabinets with common wood top. Top includes specified edge detail on curved front side, and a 3" diameter CGCA grommet centered at the rear edge.
- Left cabinet includes pullout shelf for CPU storage behind a hinged door, and two black cable access grommets on left side for pass-through cabling between monitor stand and presentation cabinet on left.
- Center cabinet includes 4 3/4" high VCR opening above hinged doors, with one adjustable shelf behind the doors, and large cutout in back for ventilation and access to building power. Center cabinet is partial depth, which allows cable access and ventilation between the three cabinets, and access to the floor and wall behind the center cabinet. Open channel in bottom of cabinet provides additional cable access.
- Right cabinet includes pullout drawer with divided storage for 70 CD cases, 28 videocassettes, or other media, and two black cable access grommets on right side for pass-through cabling between monitor stand and presentation cabinet on right.

- The width of the center cabinet varies according to the overall unit width.

Overall Width	Left	Center	Right
42"	12"	18"	12"
48"	12"	24"	12"
54"	12"	30"	12"
60"	12"	36"	12"
66"	12"	42"	12"

Conference Consoles

- Wood top includes specified edge detail on front side and is available with or without heat-resistant protective glass. T50 edge is not available on consoles with protective glass.
- Pedestal on left includes two box drawers and one file drawer (19 1/8" wide), with open storage above.
- Center storage includes adjustable shelf behind doors (38 3/4" wide), with open storage above.
- Pedestal on right includes pullout refuse and recycling receptacles (19 1/8" wide), with open storage above.

Carts

- Carts include wood top available in all wood finishes, and metal frame available in all metal finishes.
- Carts include four locking 4" diameter black casters with soft, antistatic tread.
- Media carts include VCR/computer shelf assembly with three-outlet power strip and wire manager.
- Carts with storage include wood storage cabinet with one CD drawer and one file drawer. Top of cabinet is recessed to retain materials in transit. Locks are not available on storage cabinet.
- Hospitality cart includes textured polyethylene pullout auxiliary surface with spill rail, and removable, ribbed nonskid pad.

Mobile Easel

- Easel includes image-enhancing, low-glare projection/dry erase surface on front panel, which pivots forward to correct "keystone" image distortion. Wood retention rail for markers and eraser is provided below marker surface, and hardware for extra flip chart storage is provided inside the easel cabinet.
- Easel back includes dry-erase marker surface and flip chart. One set of markers and eraser are included.
- Easel includes four locking 4" diameter black casters with soft, antistatic tread.
- File drawer includes hanging file frames that accommodate letter or legal files. Locks are not available.

Dry-Erase Boards

- Open dry-erase boards consist of a wood frame around dry-erase surface. One set of markers and eraser are included. For marker storage, specify presentation rail for placement below wood frame.
- Closed dry-erase boards include marker rail, one set of markers and eraser, and fabric wrapped tackboard and flip chart inside hinged doors. Flip chart dimensions vary according to size of dry-erase board:

48"W unit 20"W x 34"H flip chart
60"W unit 27"W x 34"H flip chart

- Closed dry-erase boards are available with separate wood top with specified edge detail. Locks are not available.
- Hardware for wall attachment is included.

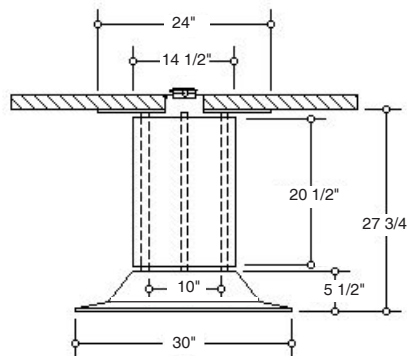

Presentation Rails

- Rails are available in all wood finishes with solid wood front edge available in all edge details. T50 edge is not available.
- Presentation rails may be used alone, or below open dry-erase boards.
- Hardware for wall attachment is included.

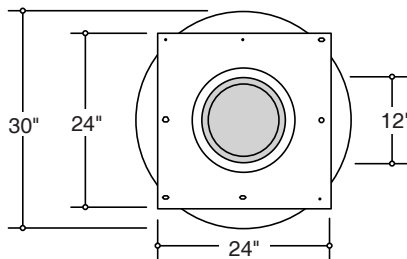

Conference Tables

- Wood table tops include a cable access grommet or Nerve Center™ grommet above each table base.
- Table base consists of hollow wood table column and metal column foot. Each table base weighs 103 pounds.

Table column is 14 1/2" diameter and features a hinged door for cable access. Door includes spring lock at top for secure closure. Metal column foot is 30" diameter, and is available in all metal finishes. See section drawing below.

- Power source and voice/data lines should be located in floor, within a 12" diameter area centered beneath the table base. See plan view drawing below.

Electrical Accessories

- Electrical and communication accessories (power columns, power half spheres, and communication half spheres) are designed for use in Broadcast conference tables listed as tables "with cable access grommets". Grommets are included with these tables, but electrical accessories should be specified separately as needed.
- Accessories should be specified to meet user requirements and local codes.
- Power columns may be specified separately for use inside Broadcast table columns. Each power column provides three outlets and two communication jacks. For additional capacity and convenience, plug-in and hardwire versions are available, with a variety of telephone and data jack configurations.
- Power and communication half spheres may be specified separately for use in Broadcast table tops to provide tabletop access to outlets and telephone or data jacks. Two half spheres can be installed in one tabletop cable access grommet.
- Power half spheres include two outlets and a three-prong grounded plug, which can plug into a power column located inside the table base column, or into an outlet located in the floor, within a 12" diameter area centered beneath the Broadcast table base.
- Communication half spheres contain two data or telephone jacks. Data/voice lines should be located in the floor, within a 12" diameter area centered beneath the Broadcast table base.
- Provision of power source and voice/data lines, and connection to power columns or half spheres are the responsibility of the Customer.

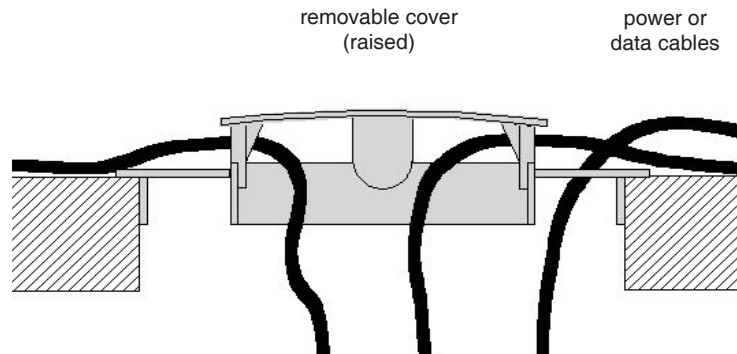

Broadcast™ Collection

GEIGER

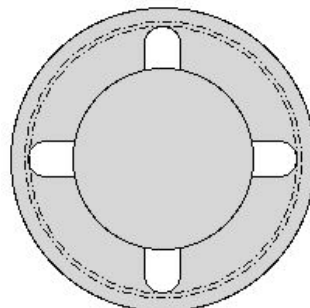

Product Features

Cable Access Grommets

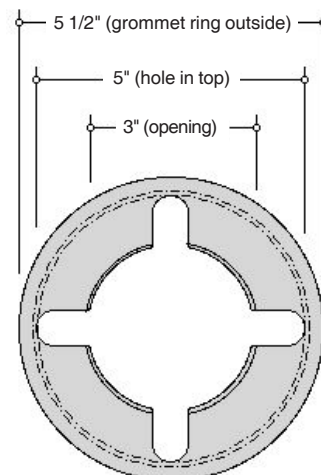

- Cable access grommets are included in Broadcast conference tables listed as tables "with cable access grommets".
- Cable access grommets include a removable metal cover and metal grommet ring (available in all metal finishes). The grommet cover may be set in a flush or raised position according to cable volume.
- Cable access grommets are installed in a 5" diameter hole in the table top. Clear inside opening is 3" diameter, not including four slots which allow cord exit when cover is in flush position.
- When cover is removed, cable access grommets can accommodate two optional power or communication half-spheres, which provide tabletop electrical outlets and voice or data receptacles.
- Electrical and communication accessories (power column, power half spheres, and communication half spheres) are not included in Broadcast conference tables with cable access grommets. Accessories should be specified separately as needed.
- Provision of building power source, voice/data lines, and connection to electrical and communication accessories are the responsibility of the Customer. Power source and voice or data lines should be located within a 12" diameter area centered beneath each Broadcast table base.

Cable Access Grommet

Plan View
Cable Access Grommet With Cover

Plan View
Open Cable Access Grommet

Nerve Center grommets are included in Broadcast tables listed as "with Nerve Center".

Nerve Center modules and grommets ship uninstalled. Installation instructions are included, and are also available at the Geiger website, www.geigerintl.com.

Nerve Center grommets are installed in a 7 1/8" diameter hole in the table top. The grommet ring inside diameter is 7". Clear inside opening for cable pass-through is 4 1/2" diameter.

The center of the Nerve Center is open so that cords and excess cable may be easily dropped out of sight to eliminate clutter on the tabletop. The Nerve Center hinged metal cover allows cords to exit in the closed position, and also discreetly makes users aware that connectivity is close at hand.

Nerve Centers are cast aluminum, and include four grounded outlets and space for four additional voice or data receptacles. A circuit breaker is provided. A complete set of snap-in adapters accommodates varying customer-provided receptacles, including blanks for customization or future needs.

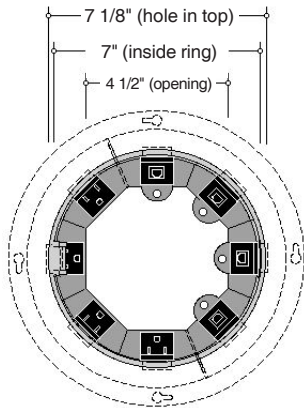

In addition to the four voice/data locations, four cable clips hold other necessary cables for LCD projectors, smart boards, audio cabling, microphones, or additional network cables if desired.

Voice and data cables are shielded and separated from the power compartment. An open slot in the voice and data half of Nerve Center allows the cables to be pulled freely into the unit, so that the jacks may be punched down at the tabletop.

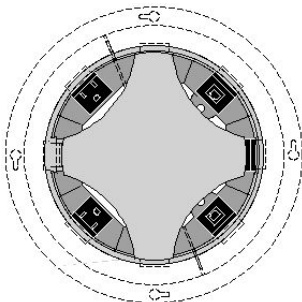

The Nerve Center is UL® and CSA listed. When hardwired it is approved for use in Chicago and New York City.

Provision of a building power source and voice/data lines, and connection to the Nerve Center are the responsibility of the Customer. Connection to building power should be performed by a licensed electrician according to local codes.

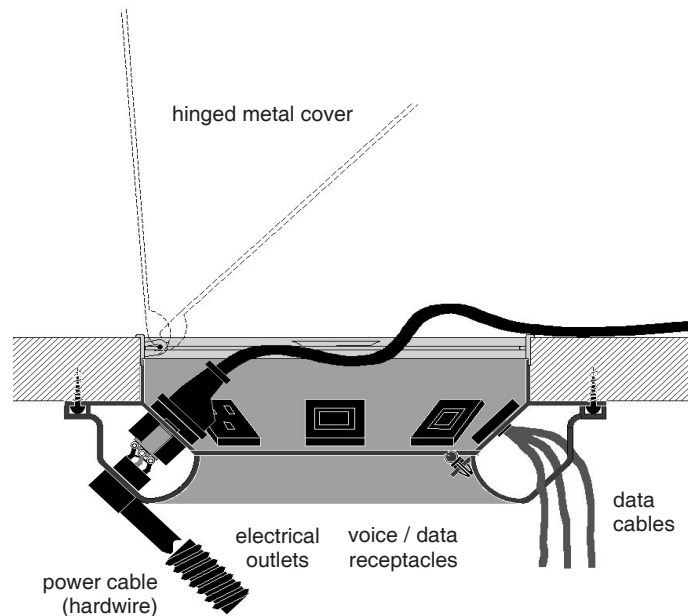

Power source and voice or data lines should be located within a 12" diameter centered directly beneath each Broadcast table base.

Broadcast™ Collection

GEIGER

Product Features

Presentation Wall Components

Broadcast storage components are designed for highly efficient space utilization. Each unit supports one or more specific purposes. The combined usefulness of these components creates powerful multi-purpose meeting spaces.

Creating Broadcast presentation walls is simple. All components can be freestanding or used in conjunction with other units. A typical use of presentation cabinets is to position a cabinet on each side of a monitor stand, as shown above. Cables travel freely through access holes in side of the presentation cabinets and monitor stand.

Broadcast Collection components are compatible with Petri™ Casegoods products. This gives the designer almost unlimited flexibility to create the perfect conference environment.

Specify a low profile presentation wall by surrounding a Broadcast monitor stand with Petri low storage units. Petri vertical storage units can be included in a Broadcast presentation wall for more storage, or a presentation cabinet can be added to a Petri private office for a high performance management center. See the Petri™/Eco™/Triuna™ Casegoods pricebook for the full range of Petri products.

Notes

Small cable access grommets provide a 3" diameter opening, and are installed in a 3-3/16" diameter hole. Cover plate lifts for cable access.

Cable access grommets provide a 3" diameter opening, and are installed in a 5" diameter hole. Grommets include a removable metal cover and metal grommet ring (available in all metal finishes). The grommet cover may be set in a flush or raised position according to cable volume.

Nerve Center grommets provide a 4-1/2" diameter opening, and are installed in a 7-1/8" diameter hole. Cords are available with a ten-foot cord and three-prong plug, or with a six-foot flexible conduit whip to satisfy regional electrical code requirements. The Nerve Center is UL® and CSA listed. When hardwired it is approved for use in Chicago and New York City.

Locks Marquetry

Locks

Lock Types
For Broadcast conference consoles and monitor stands

LK Black Lock
SK Nickel Lock
NO No Lock

Notes

When locks are specified, lock cylinders must be ordered separately for field installation. There is no charge for lock cylinders. Products will be shipped with lock chassis installed. Lock cylinders will ship separately, tagged as specified. Installation of cylinders will be on-site according to instructions provided. Geiger will not be responsible for lock cylinder installation.

How to Order Lock Cylinders

1. Calculate the total number of locks per office.
2. For each office, order a lock cylinder kit with the required number of cylinders. Use part number PLUG1 (1 cylinder), PLUG2 (2 cylinders), etc. up to PLUG15.
3. Specify lock cylinder finish X Black or N Nickel.
4. If a specific key number is required, specify a key number between 226 and 427, excluding 408 and 412. For a factory selected key number, specify Z.
5. Include tagging information (floor, office, typical, etc.).

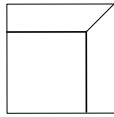

Lock Cylinder Order Example

Part Number	PLUG3
Description	Lock cylinder kit, includes 3 lock cylinders, keyed alike
Lock Finish	X Black
Key Number	233
Tag	Third Floor, Office 300

Marquetry

Simple Line Marquetry (add B Marquetry upcharge shown on the product page)

B312 Black
B11 Champagne Maple
B21 Champagne Beech
B42 Sundance Cherry
B81 Champagne Hickory
BUL Natural Maple (HMI)

No Marquetry

NOIM No Marquetry Required

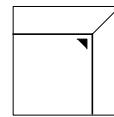

Notes

Black wood marquetry is available on any wood finish top. Natural finish inlay is available on natural wood finish tops only.

Wood marquetry is 3/16" wide.

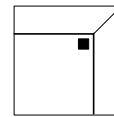

Triangle Marquetry (add T Marquetry upcharge shown on the product page)

T312 Black
T11 Champagne Maple
T21 Champagne Beech
T42 Sundance Cherry
T81 Champagne Hickory
TUL Natural Maple (HMI)

Square Marquetry (add S Marquetry upcharge shown on the product page)

S312 Black
S11 Champagne Maple
S21 Champagne Beech
S42 Sundance Cherry
S81 Champagne Hickory
SUL Natural Maple (HMI)

No Marquetry

NOIM No Marquetry Required

Notes

Black wood marquetry is available on any wood finish top. Natural finish marquetry is available on natural wood finish tops only.

Marquetry includes simple line wood inlay and inlaid wood medallions. Medallion locations vary according to the table size, shape and corner detail. The drawings above show a mitered corner detail, available on square and rectangular tables.

Custom Veneer Layout

Custom veneer layout is available on selected tables with one-piece tops. Contact your Geiger sales representative for availability, ordering information and upcharges.

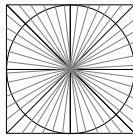

Sunburst layout is not available in maple, bird's-eye maple or sycamore.

Diamond

Reverse Diamond

Sunburst

Notes

Geiger beech, cherry, hickory, maple and walnut wood veneers are flat-cut and book matched. Anigre, ash, and sapele veneers are quarter-cut and slip matched. Oak veneers are rift cut and slip matched. For products with solid wood edges or legs, the solid wood species used with each type of wood finish is as follows:

Anigre finish	cherry solid
Ash finish	ash solid
Beech finish	maple solid
Cherry finish	cherry solid
Hickory finish	oak solid
Maple finish	maple solid
Oak finish	oak solid
Sapele finish	mahogany solid
Walnut finish	walnut solid

Natural wood finishes are unstained to maintain the natural beauty and clarity of the wood. When the veneer and solid wood species are not the same the veneer and solid may differ in color and graining. When a stained wood finish is specified, the solid wood edges are stained to match the veneer top as closely as possible.

Herman Miller finishes may be produced in either low or medium sheen depending on the product specified. The sheen available for each product is listed in the specific option choices.

Special finish colors may be developed upon request. A set-up fee will be charged on orders under \$200,000 list. In order to protect the quality and durability of Geiger's finish, the chemical composition of the staining materials, water-base sealers, and urethane top coats will not be altered for special finishes.

Exotic veneers such as pearwood, bird's eye maple and sycamore are available upon request, at additional cost.

For further information and procedures for special finishes or exotic veneers, contact your Geiger sales representative.
