

FIRST SIGHT
OCCASIONAL

First Sight™ tables, inspired by the design of steel-hulled ships in which holes are punched out of a single exterior skin, suggest a fluid, single-piece shape. First Sight tables feature steel frames in metallic silver or white powder-coat, topped with wood or backpainted glass, in coffee- and side-table sizes. The round doubles as an ottoman with the addition of an upholstered top. *Designed by Mark Goetz.*
