

Lissome™ tables feature undulating sides that push the art of molded, veneer-clad plywood, in an organic shape that suggests softness and “give.” Extra utility comes in the form of a glass shelf that appears to float between the coffee table’s molded sides. Available as a coffee table and console table, Lissome can be clad in any of Geiger’s maple, cherry or walnut veneer finishes. *Designed by Eric Chan.*

COFFEE TABLE: 46W x 21D x 16.25H  
CONSOLE TABLE: 46W x 16D x 26H
